

Institut für Vogelforschung

„Vogelwarte Helgoland“

Wilhelmshaven

Ornithologisches Kolloquium 2021/2022

NEU: Mi 13:30 – 14:30 Uhr

Teilnahme an den Vorträgen via Zoom

(Links auf Anfrage unter poststelle@ifv-vogelwarte.de)

- 03.11.2021 **Petra Quillfeldt** Justus Liebig Universität Gießen
The small pelagics: Ecology of prions and storm-petrels
- 17.11.2021 **Barbara Helm** University of Groningen (The Netherlands) &
Schweizerische Vogelwarte Sempach (Schweiz)
The right timing? Avian clocks meet changing environments
- 01.12.2021 **Reto Burri** Schweizerische Vogelwarte Sempach (Schweiz)
*Genomics of hybridization, speciation, and phenotypic evolution in
wheatears (genus *Oenanthe*)*
- 15.12.2021 **Rebecca Safran** University of Colorado, Boulder (US)
16:00-17:00
*The role of adaptation in phenotype divergence and speciation: an
integrative and comparative perspective*
- 12.01.2022 **Robert Rollins** LMU Munich (Germany)
*Out of Asia? The complex evolutionary history of Eurasian Lyme
borreliosis spirochetes and the role of host and vector adaptation*
- 26.01.2022 **Mark Hauber** University of Illinois at Urbana-Champaign (US)
*Testing ecological models through applied conservation projects: case
studies from New Zealand seabirds*
- 09.02.2022 **Elin Videvall** Brown University (US)
A Bird's-Eye View of the Microbiome
- 23.02.2022 **Martin Stervander** Natural History Museum, Tring & London (UK)
- 09.03.2022 **Marina Rodriguez** Colorado State University (US)
